Letter of Testimony

As part of the National Development Strategy of the Country, the Ministry of Innovation and Technology is continually working on the major Human Resource Capacity Building programs in Ethiopia.

To enhance the operational efficiency and effectiveness of Federal and Regional Government Institutions, Ministry of Innovation and technology has developed a national elearning platform so that professionals get trained online.

In line to this , IntraCom ICT Solution PLC has delivered the project **Development and Integration of E-learning Content**. The project is an online training content development for IT trainings which has already been uploaded on the existing elearning platform.

In this letter, we would like to express our gratitude for the way the project has been developed.

Best Regards,

Senait Berihu

Technology and Knowledge Expansion and
Management Directorate Director
